Supplement Facts: Each capsule contains:

Ingredients	Strength	Therapeutic Indication
Tribulus terrestris fruit extract	100mg	Tribulus terrestris is purported to have a variety of health benefits, including reduced blood sugar and cholesterol, altered hormone levels and increased sexual function and libido.
Desmodium gangeticum leaf extract	50mg	Desmodium gangeticum has many potential health benefits. It has a marked analgesic and anti-inflammatory properties. It also exhibits aphrodisiac properties to maintain sexual power and libido which helps to manage male sexual health issues like sexual debility and premature ejaculation.
Mucuna pruriens seed extract	20mg	Mucuna pruriens is a reproductive tonic that supports fertility, healthy sperm and ova, proper functioning of the reproductive organs, and healthy genital secretions. As an aphrodisiac, mucuna bolsters healthy sexual energy and libido.
Withania somnifera extract	30mg	A small study suggests that daily use of Withania somnifera for 90 days increases the sperm count and improves the health of sperm too.
Asparagus racemosus extract	10mg	Asparagus racemosus acts as an aphrodisiac and used to increase sexual desire.
Sida cordifolia extract	10mg	Sida cordifolia is beneficial in treating erectile dysfunction and acts on the central nervous system. It contains ephedrine that acts as a mood-altering and enhancing drug, which increases the duration of erection and control ejaculation during intercourse. Being a natural aphrodisiac, it improves libido and sexual well-being.
Hygrophila Auriculata extract	10mg	Hygrophila stimulates the male genital system and is beneficial in the treatment of sexual debility, premature ejaculation and erectile failure.
Myristica fragrans extract	10mg	It is a potential anti-depressant and helps stabilizes mood.
Argyrea speciosa extract	10mg	It enhances serum testosterone level and confirmed the role of A. speciosa in enhancing aphrodisiac as well spermatogenic potential.
Asparagus adscendens extract	20mg	It is a strong aphrodisiac and arouses sex urge. It is highly beneficent in conditions like low sperm count, lack of libido, general weakness, and premature ejaculation.
Orchis latifolia extract	80mg	It has aphrodisiac properties. It is also used to increase the testosterone level and also help to increase sexual desire.
Lepidium Meyenii extract	30mg	It has positive effects on issues like low sexual desire and erectile dysfunction. It may improve libido in men without increasing testosterone or estrogen levels. It also improves sperm count and motility. It also acts as anti-depressant and helps improve mood.
Epimedium Icarin extract	50mg	Epimedium icarini might help increase blood flow and improve sexual function. Is also being used for erectile dysfunction (ED), and other sexual problems.
Asphaltum punjabianum extract	10mg	Asphaltum punjabianum increases testosterone levels which ultimately increases sperm count and sex drive in men.
Ginseng extract	10mg	Ginseng helps in the treatment of Erectile dysfunction. It also helps in reducing fatigue and provides energy to the body.
