**DESCRIPTION:**

Chemical formula of Zinc sulphate is ZnSO<sub>4</sub>

Zinc (Zn-Once) is an essential component of a large number (>300) of enzymes participating in the synthesis and degradation of carbohydrates, lipids, proteins, and nucleic acids as well as in the metabolism of other micronutrients.

Zinc (Zn-Once) stabilizes the molecular structure of cellular components and membranes and in this way contributes to the maintenance of cell and organ integrity. Zinc (Zn-Once) plays a critical role in the development and maintenance of a healthy immune system and child growth.

**QUALITATIVE AND QUANTITATIVE COMPOSITION:**

**SYRUP:**

Each 5ml contains: Zinc Sulphate Monohydrate USP eq. to Elemental Zinc .....20mg

**TABLETS:**

Each Dispersible tablet contains: Zinc Sulphate Monohydrate USP equivalent to elemental Zinc.....20mg

۱۰ سے ۱۴ دن تک	ایک گولی دن میں ۲ مرتبہ روزانہ	۶ ماہ تک کے شیر خوار بچوں کے لیے

خوراک

**Joint statement on the clinical management of acute diarrhea. World Health Assembly, Geneva, 2004.**

World Health Organization and UNICEF have published a joint statement, encouraging wide spread use of zinc supplement for the treatment of childhood diarrhea. This statement recognized the research finding that zinc supplement (Zn-Once) can significantly reduce the duration and severity of an episode of diarrhea and if given for 10 – 14 days, it will lower the incident of diarrhea in the subsequent 4 – 6 months.

**DRUG INTERACTION:**

Zinc sulphate (Zn-Once) may inhibit the absorption of concurrently administration of tetracyclines, when both are being given with interval of at least 3 hours.

**SIDE EFFECTS:**

At recommended dosage no side effect observed.

**HOW SUPPLIED:**

Zn-Once 20mg tablets are available in Alu/PVC Blister pack of 30 Dispersible tablets.
